MUKESH PATEL SCHOOL OF TECHNOLOGY MANAGEMENT & ENGINEERING

PREM RAVAL

B.Tech Computer Engineering 2027 | DOB: 22/07/2004
Mumbai, India | +91 88284 75318 | premraval0770@gmail.com

PROFESSIONAL SUMMARY

B.Tech Computer Engineering student (Class of 2027) at NMIMS MPSTME with a Diploma in Computer Engineering and hands-on experience in Python, Android and Flutter app development, and machine learning. Built a verified-access job portal, an Android hostel-management app, a CNN image classifier with 80%+ accuracy, and a Unity game. Published author in an international computer engineering journal. Seeking internship opportunities in software development, data analysis, or mobile application development.

EDUCATION

B.Tech, Computer Engineering — Expected 2027
NMIMS Mukesh Patel School of Technology Management & Engineering (MPSTME), Mumbai — CGPA: 2.5 / 4.00

Diploma, Computer Engineering — 2023
Thakur Polytechnic (Zagdu Singh Charitable Trust) – MSBTE — Score: 78%

Secondary School Certificate (Class X) — 2020
St. Xavier's High School, Mira Road – SSC — Score: 75%

TECHNICAL SKILLS

Programming Languages: Python, C++, JavaScript, SQL, R, HTML, CSS
Mobile & Game Development: Android SDK, Android Studio, Flutter, Unity
Data & Machine Learning: Data Analysis, Convolutional Neural Networks (CNN), Image Classification, Automation

PROFESSIONAL EXPERIENCE

Computer Engineer Intern | Static.Int Educare — Jun 2022 – Aug 2022

- Performed data analysis and built automation scripts using Python.
- Developed mobile applications using Android Studio and Flutter frameworks.
- Researched blockchain technology for decentralized solutions and secure data handling.

PROJECTS

Job Portal for Disabled People | Web Application (Major Project) — 2023

- Designed and developed an accessibility-focused job portal connecting candidates with disabilities to employers.
- Implemented a verification workflow requiring government disability documents before candidates can apply.
- Built resume-creation and job-application features for candidates, and job-posting and applicant-tracking features for companies.

Image Classification using CNN | Machine Learning — 2024

- Built and trained a Convolutional Neural Network (CNN) to classify images across 10 classes with over 80% accuracy.

Hostel Connect | Android SDK — 2024

- Developed an Android application that centralizes hostel-life management for student residents on a single platform.

Fun Tracer | Unity — 2024

- Created an educational game that digitally recreates the letter-tracing experience for children.
